

Unit 3 Extension

Name:

1 Write the words below in your own language. You can use a dictionary.

1. blood 2. ill 3. disease

2 Read the text about mosquitoes.

MOSQUITOES

People hate mosquitoes. Mosquitoes fly around us at night and they drink our blood. They can make us ill, too. They sometimes carry viruses or the malaria bacteria. These diseases kill two million people around the world every year!

Mosquitoes like places with water. They have got thousands of eggs and they leave their eggs in the water. Then the insects grow there. Mosquitoes also like dark colours and places. Their favourite time to look for food is at night.

So what can you do about these horrible insects? Here are some ideas:

- **Don't leave water near your house:** No water means no mosquito eggs.
- **Wear long clothes at night:** Short clothes are an invitation to mosquitoes. They say, *Come and get your next meal!*
- **Use an insect repellent:** There are different types of repellents for your body and your clothes. Mosquitoes hate them!

3 Match A to B to make true sentences.

A

1. Viruses and the malaria bacteria kill
2. Mosquitoes' eggs are usually in
3. Mosquitoes have got many
4. Mosquitoes don't like
5. You can put insect repellent on

B

- a. long clothes.
- b. your clothes and your body.
- c. millions of people.
- d. eggs.
- e. water.

4 Complete the sentences with the words in brackets according to the text. Use the affirmative or negative form of the Present Simple.

1. People (like) mosquitoes.
2. People (sometimes / get) malaria from mosquitoes.
3. Mosquitoes (often / visit) dark places.
4. The article (give) five ideas to solve the mosquito problem.
5. An insect repellent (usually / stop) mosquitoes.

Unit 3

- 3** 1. c 2. e 3. d 4. a 5. b
